# MAKE IMMUNOCAL PART OF YOUR DAILY REGIMEN FOR MAXIMUM HEALTH BENEFITS

## TWO UNIQUE BENEFITS

Immunocal is the **FIRST** whey protein isolate to be granted the health claim by Health Canada that it has the ability to help increase muscle strength and enhance performance when combined with regular exercise.\*

Immunocal is the **FIRST AND ONLY** whey protein isolate recognized by Health Canada as a natural source of the glutathione precursor cysteine for the maintenance of a strong immune system.\*

Health Canada NPN: 80004370

- Helps increase muscle strength and performance when combined with regular exercise.\*
- Source of protein which helps build and repair body tissues and build antibodies.\*
- Source of essential amino acids for the maintenance of good health.\*
- Workout supplement/athletic support.\*
- Assists in the building of lean muscle when combined with regular training and a healthy and balanced diet.\*

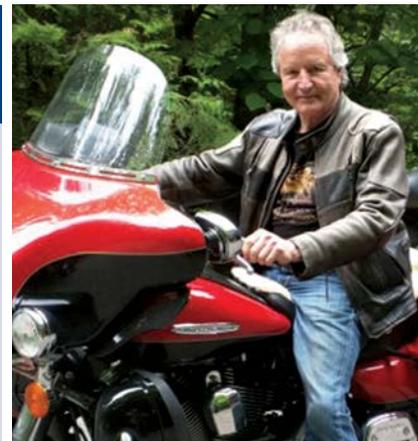

Following the publication of two peer-reviewed, double-blind, randomized, placebo controlled clinical trials, Immunotec submitted an application to Health Canada for review.

The first study exploring Immunocal's effect on muscular performance was conducted at the Montreal Children's Hospital and published in the *Journal of Applied Physiology* (1999);87(4):1381. It demonstrated that consumption of Immunocal was associated with an average increase of 13.5% in peak power and 30 second work capacity in a younger population of 20-year olds.

The second study, run at Institut de recherches cliniques de Montréal (IRCM) and published in *The Journal of Nutrition Health and Aging* (2015);19(5):531-6, found that Immunocal imparted a performance benefit of approximately 10% in a model of resistance exercise in an elderly population of between 65 years to 88 years.

*“It is great to know that everyone can benefit from taking Immunocal. Our focus has been on supporting the immune system and now everyone should use Immunocal because it is proven to help strengthen our bodies along with exercise so that we can physically function better in our everyday lives.”\**
